

# Behavioral Healthcare

## For Children, Teens & Adults

Since 1985, Rivendell Behavioral Health Services of Arkansas has provided physician-led behavioral healthcare. We support individuals facing a wide range of behavioral health challenges, such as depression, anxiety, trauma, grief, anger, addiction and impulsivity, as they work toward healing, stability and recovery.

The multidisciplinary treatment team supports patients across all levels of care to develop individualized goals and support healing throughout treatment. We also help connect patients and families with aftercare planning, crisis safety plans and community resources for continued support beyond treatment.
